OÜ Vesset

Vesset is a timber processing company located in West-Estonia, island called Hiiumaa. Our company was founded in 1995 and started producing planed softwood products (Spruce, Pine, Larch) in 1997.

Our skill and technology allows us to produce almost any planed product in any size and moisture content. The main focus is to produce smaller size and higher grade products. The moisture content can be as low as 8+/-2% and thickness as small as 8mm. The surface of the products can be either glossy, flat or finesaw. The raw material we use, is from Finland, Estonia and North part of Latvia.

In the current catalogue we will display our most common products, but we are always open to make offers for custom inquiries for different sizes and profiles.

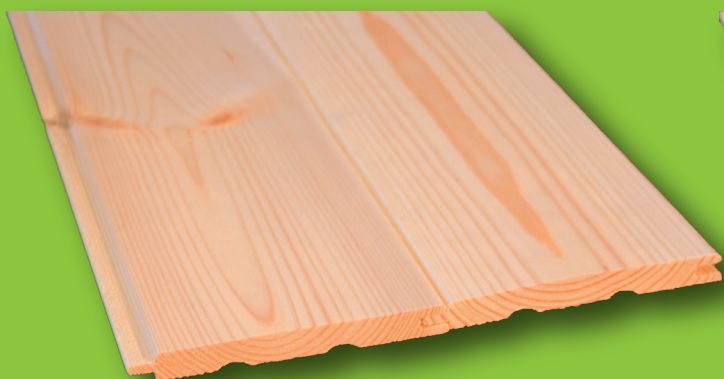

Vesset has a lot of experience working and selling around the world. We have exported our products to countries like USA, Korea, Japan, Egypt, Germany, Italy, Spain, Portugal, England, Ireland, Denmark, Sweden, Czech Republic, Hungary, France, Netherlands etc.

Our annual production volume is approx. 12000 m³. Vesset manufacturing complex lies on an area of 38500m², which contains 5000 m² of manufacturing facilities.

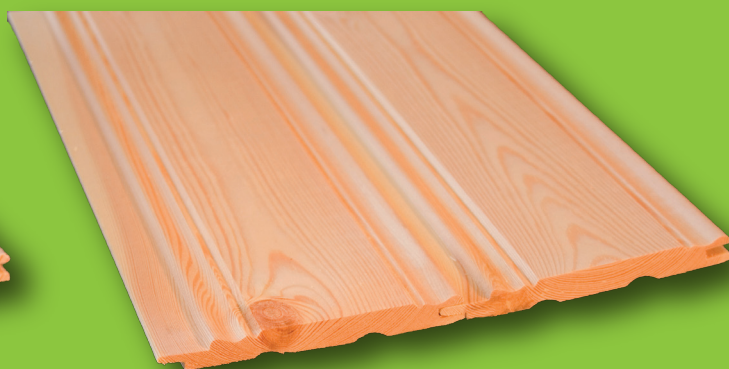

Vesset LTD is FSC and PEFC certified.

Vesset stands for values such as Trust, Quality, People, Enviroment, Progress.
